Jr Table
maximum dim. **Ø7,6x29 cm**
shade dim. **Ø7,6x27,5 cm**
weight **0,9 Kg**

High Jr Table
maximum dim. **Ø7,6x39 cm**
shade dim. **Ø7,6x37,5 cm**
weight **1,0 Kg**

electrical components
2 poles black tissue cable

light source
LED Citizen, 3,1 Watt, 9 Volt

HOW IT'S MADE

This product is produced by the 3D Printing technology: it's a 3D electronic file transformed into a solid part. Due to the manufacturing method, none of the products are the same: it's impossible to realize the .exnovo monolithic objects using the traditional technologies.

This digital sculpture is unique with its essential characteristics and very close to a work of art. Treat it carefully!

HOW TO USE

Only indoor use

The plastic parts are sensitive to ultraviolet rays and turn to pale yellow as time goes by: for this reason, we suggest to avoid direct exposure to sunshine.

Shade cleaning

The shade can be cleaned with water and soap or can be put in the dishwasher.

Disposal

The shade is completely recyclable. The components have to be divided and disposed of using the separate refuse collection, to avoid environmental damages.

The intellectual class of enlightenment is our favourite, and even today it still seems to be the only solution. As in the definition of Enlightenment, the light of reason is the "content" needed to emerge from religious obscurantism, so in the bottle, the "light contained" is the only possible reading of the object. Table lamp or freestanding lamp, in five variations of design and size, VOLTAIRE is capable of illuminating both writing and reading, softening its intensity and temperature so as to create a warm light full of atmosphere.
